JESUP BANK GETS A LONG PRISON TERM

BRUNSWICK, Ga., Feb. 2.—Leonard Carter, former president of the Jesup Banking Company, at Jesup, Ga., was today found guilty of misappropriation of the bank's funds and sentenced to not less than six nor more than eight years in the state penitentiary. The jury had deliberated since last midnight.

Carter was not present when the verdict was read, attorneys having waived his appearance. He is said to have collapsed in his cell last night. The Jesup bank failed in November, 1920.

ANOTHER 'HUNG' JURY

IN ARBUCKLE CASE IS BELIEF; NO WORD YET

SAN FRANCISCO, Feb. 2.—Another "hung" jury in the manslaughter case of Roscoe "Fatty" Arbuckle seemed probable today.

Unable to agree after more than five hours' deliberation, the jury was locked up over-night and today resumed their deliberations at 10 o'clock.

Not a word has leaked out of the jury room regarding the ballots which have been in progress there since 3:44 yesterday afternoon. In the first trial fairly authentic information came by some "grape-vine" channel from the jury room, but only vague rumors were passed on to the standing of the jury.

Henry Ottenburg, an alternate juror, who was discharged when the twelve original jurors returned, expressed the belief that the count was 10 to 2 for acquittal. This seemed to be the prevailing belief, although Assistant District Attorney Friedman was inclined to believe the division was more equal.

Twice the jury has come to the court room from the jury room. The first time the testimony of Josephine Keza, hotel chambermaid, was read to them. The second time they asked Judge Louderback to re-read his entire instructions. Attorneys said this was the first time to their knowledge a jury had ever asked for the court's full instructions to be given.

Following the reading of these instructions a second time, the jury retired and took another ballot, with no results.

PROFITEERS WILL BE SUED BY GOVERNMENT FOR PRICE FIXING

WASHINGTON, Feb. 2.—Government suits probably will be brought against manufacturers who profiteer in life's necessities through unfair price fixing, it was officially announced at the department of justice today.

Unfair prices maintained by manufacturing groups are to blame for the profiteering in staple goods, according to the opinion of the department of justice, following its survey of retail prices throughout the country.

England taxed hachobes in 1695 to raise money for the French wars.

Explosion had occurred in the mine, men, women and children gathered at the mouth of the shaft awaiting news of their relatives who were in the mine when the explosion took place.

The explosion was terrific and occurred between 4 and 5 o'clock. Gates is a little hamlet back in the mountains and communication is difficult.

One statement by a company official said about 100 miners were at work at the time of the explosion, but that some had escaped by use of ropes and cables by which they clambered about the 20-foot shaft. The entrance to the mine is a picture of horror.

At the base of the shaft are the bodies of the five dead miners. They have not been identified. The bodies of some of the victims are charred so badly they probably will never be identified.

Sam Brown, former Boston Braves catcher, is directing the rescue work. His wife is aiding him. Brown is superintendent of the mine.

A squadron of state troopers was ordered to the mine to aid in the rescue and preserve order.

The mine in which the explosion occurred is the largest of the 63 mines of the H. C. Frick Coke Company.

Delaware has an average elevation of 60 feet above sea level.

CONFERENCE TO ADJOURN IN A WEEK

WHIP APPLIED TO THE LAGGING MEETING AT SESSION HELD TODAY

WASHINGTON, Feb. 2.—The whip was applied today to the lagging armament conference in a drive to have it complete its work and adjourn finally within another week.

Secretary of State, Hughes and the other conference leaders are determined to end the conference by the last of this week or the first of next week if it is humanly possible to do so.

Material sold to the delegates when committee meetings were resumed today on the two far eastern treaties. The outcome of the election will depend whether a reconciliation is to be effected between the Vatican and the Italian state. It is expected that the first ballot will not be taken until Friday morning.

Eight cardinals were absent today. Two of them from America, who may arrive in time for last balloting before choice is made—Next Pope Will Be 261st to Occupy Papal Chair—Two-thirds Majority Necessary to Elect.

ROME, Feb. 2.—The most important papal election in more than half a century began today when the conclave of 52 cardinals assembled in secret in the Vatican to ballot upon a successor to Benedict XV, late sovereign pontiff of the Church of Rome.

The three major questions occupied the attention of the delegates when committee meetings were resumed today along the line today:

1.—The Chinese Eastern railway.

2.—The matter of selling arms to China.

3.—The much discussed 21 demands.

Only minor differences are holding up the agreement respecting the Chinese Eastern railway. International control will be continued until Russia is in a position to reassess her claim to control with China.

Italy is holding up the decision respecting arms to China. All the other powers have signified acceptance of the resolution, which pledges them not to import arms and ammunition into the strife-torn country. The Italian delegates ostensibly are awaiting advice from Rome before giving adherence to this proposition.

Actually, it is understood, Italy already has sold a great quantity of surplus war materials to the Chinese and negotiations are now pending on further sales. There is every indication, however, that Italy will come into line.

The 21 demands alone presented today an uncertain issue. The general expectation is that Japan will renounce group five of those demands, which were never accepted by the Chinese and which were left "sponsoring and under discussion" then short work can be made of the other demands by reference to the numerous resolutions adopted by the conference, which tends to invalidate many of them.

WASHINGTON, Feb. 2.—Further evidence that the Washington conference is almost at an end was seen here today in the announcement that the majority part of the British delegation, headed by A. J. Balfour, will sail for home on the liner Aquitania, leaving New York on Tuesday, Feb. 7.

It is probable that parts of the French and Italian delegations will leave about the same date.

BALFOUR AND BRITISH DELEGATES SAIL TUESDAY

It is probable that parts of the French and Italian delegations will leave about the same date.

PORTUGAL, HOLLAND BEING BROUGHT INTO THE PACIFIC TREATY

WASHINGTON, Feb. 2.—Holland and Portugal, the two smaller powers having substantial interests in the Pacific regions, are being "informally" brought into the provisions of the four powered Pacific treaty concluded between the United States, Great Britain and Japan. It was learned officially today.

The powers signatory to the treaty are addressing individual notes to Holland and Portugal, assuring them that, though not signatory powers, they are nevertheless, "to all practical purposes" party to the treaty which is designed to keep the peace of the Pacific.

It is understood that this action was decided upon by the four big powers in order to ally Dutch and Portuguese criticism of the pact.

FATHER AND SON ARE TAKEN INTO CUSTODY ON A MURDER CHARGE

DENVER, Feb. 2.—H. W. Bradley, said by police to be a fugitive from Cedar Hills, Tenn., has been taken into custody here, with his son, James Bradley.

According to police, the father had confessed that he jumped a bail bond of \$12,500 following an arrest for his conviction of the slaying of R. S. Dronathan, wealthy businessman of Cedar Hills. According to Bradley's statement, police say, the father is alleged to have become friendly with Mrs. Bradley. Mrs. Bradley was shot at the time Douglas was killed, but is not suspected.

DAUGHERTY PREPARING FOR STRIKE

JUSTICE DEPARTMENT READY TO MEET ANY COAL STRIKE EFFORT

WASHINGTON, Feb. 2.—Stirred to action by the fear of a nation-wide strike of railroad workers and coal miners as a result of the proposed coalition of their forces to resist wage reductions, high officials of the government prepared today to combat any efforts to tie up transportation facilities or to stop necessary supplies of food and fuel.

Attorney-General Daugherty announced that the department of justice, having considered the possibility of a mine strike for several weeks, had drafted a formal statement of the government's policy to be made public within a few days.

"I don't care how many unions they organize," the attorney-general declared, referring to the invitation extended to the sixteen railroad unions by John L. Lewis, president of the United Mine Workers of America. "I would never do anything to break up the unions so long as they are lawfully conducted, but I would never allow the unions to break up the 'open shop'."

"People are more interested in work and wages, peace and plenty, than they are in either the unions or the 'open shop'." People must have coal to keep warm and food to prevent hunger. They cannot get either without work.

PREMIER AND HIS CABINET RESIGN IN ITALY TODAY

ROME, Feb. 2.—Premier Bonomi and the entire Italian cabinet resigned today.

The resignation of the cabinet was due to the growing hostility in parliament circles during the last week. The resignation of the cabinet may have some effect forthcoming of the economic conference at Genoa as Premier Bonomi was in charge of the preparations.

FRENCH CITIZENS LOCKED ON WHILE SOLDIERS HANGED

WASHINGTON, Feb. 2.—French citizens looked upon the hanging of American soldiers in France as a "show." It was testified today by Harry L. Woolbridge, of Pawnee, Kansas, before the senate committee probing charges of Senator Watson, of Georgia, of illegal hangings in the A. E. F.

Woolbridge declared that four negroes were hung at public executions early in 1919 at Is-sur-Tille, France, to which French citizens were invited.

"How did the French act at these hangings?" asked Senator Bradley, (D), chairman of the committee.

"They looked upon the hangings as a show," replied Woolbridge.

He added that soldiers from all units in the camp had been ordered to attend the executions.

SHAUGHNESSY, 2ND ASSIST. POSTMASTER GENERAL, DIED TODAY

WASHINGTON, Feb. 2.—Edward H. Shaughnessy, of Chicago, second assistant postmaster general, died in Garfield Hospital this morning from injuries received in the Knickerbocker Theater disaster here Saturday night.

Shaughnessy accompanied his wife and daughter to the show Saturday night. The crash of the roof caught and severely injured the whole family. Shaughnessy's injuries were the most serious. He suffered a broken pelvis and internal injuries. His wife was removed to the hospital with several broken ribs, and his small daughter, Ruth, had an arm broken.

Shaughnessy succumbed after a tempestuous fight had been made to save him. Numerous blood transfusions were made, soldiers and college students having volunteered the sacrifice.

The death of the assistant postmaster general begins the official search roll in the theater crash to 96.

He was appointed to his post from Chicago early in the Harding administration.

MOVIE DIRECTOR SHOT AND KILLED AT DESK

LOS ANGELES, Feb. 2.—Shot down while writing at his desk by a mysterious assassin, William Desmond Taylor, well-known motion picture producer and director, was found dead today in his bungalow in the West Lake district. Death was caused by a bullet wound in the back, just below the left shoulder, according to the police.

APPEAL OF 'BLUEBEARD' REJECTED BY THE COURT

PARIS, Feb. 2.—The appeal of Henri Landru, so-called "French Bluebeard" who was found guilty of murdering ten women and a boy, was rejected by the court today. Landru will be guillotined. The state charged that Landru made love to the women, promised to marry them and then killed them for their money.

GREATEST INDUSTRIAL TIE-UP IN HISTORY OF IS NATION EXPECTED

WASHINGTON, Feb. 2.—The greatest industrial tie-up in the history of the nation is expected to be reached within the next few months as the government prepares to enforce the new coal and oil laws. The government would have to guarantee these supplies and market them. It would cost more than marketing our own. I don't think these foreign supplies would bring as much as our own bonds. They would have to be sold at a discount because subject to municipal taxes.

Secretary Mellon objected to a graduated stamp tax on checks. He said it would be complicated and would not be adjusted easily.

He opposed a general sales tax because of its cost of administration. "You would have more than a million returns," he said. "It entails a work of great magnitude. It would take a new unit in the treasury with two thousand additional employees. Where would we put them?"

The senators said that it might be possible to levy a tax of a gallon tax on gasoline for use in tax engines which would yield \$100,000,000 a year.

There are 11 states that tax gasoline and representative Birchard, Republican of New Jersey.

And would have to keep that in mind," said the secretary. "The states now have sources of receipts from tax."

"The action which the department of justice is contemplating is intended to be beneficial to the public."

Daugherty was emphatic in his statement that no new legislation would be required to carry into effect the plan which the department of justice has to avert a general mine and rail walkout.

"We have plenty of laws to deal with any situation," he said.

The attorney-general said that he had "no prejudice" for the unions and that he would "encourage them."

"But," he continued, "the unions cannot do what individuals themselves cannot do. I will support the unions so long as they are lawful, but they cannot destroy the right of a contract between individuals. It is not permissible for the unions to prevent a man from performing a service which under a contract he has agreed to perform."

The factional feeling in the sacred college made it certain that the election would be a difficult one, and indicated the balloting would be long drawn out. Predictions were freely made that either a compromise cardinal or a "dark horse"—some comparatively obscure cardinal—would be chosen.

The high political feeling was engendered by the following circumstances:

THE TRUE STORY of the KU KLUX KLAN

(Copyrighted)
BY COL. WINFIELD JONES

CHAPTER 4.

DECLARATION OF THE KLANSMAN

(Continued from yesterday)

While most of the records of the Nashville secret convention are lost, there is in existence a statement of the chief principles of the order which contains the following:

"We recognize our relation to the United States Government, the supremacy of the Constitution, the Constitutional laws thereof, and the Union of the States thereunder."

The special object of the Order were set out as follows:

1. "To protect the weak, the innocent, and the defenseless from the indignities, wrongs, and outrages of the lawless, the violent, and the brutal; to relieve the injured and the oppressed; to succor the suffering and unfortunate, and especially the widows and orphans of Confederate soldiers."

2. "To protect and defend the Constitution of the United States and laws passed in conformity thereto, and to protect the states and people thereof from all invasion from any source whatever."

3. "To aid and assist in the execution of all Constitutional laws, and to protect the people from unlawful seizure, and from trial except by their peers in conformity with the laws of the land."

Fehring's "Documentary History of Reconstruction" gives the following declaration of the Nashville convention:

"This organization shall be styled and denominated the Order of the Ku Klux Klan."

"We, the Order of the Ku Klux Klan, reverentially acknowledge the majesty and supremacy of the Divine Being, and recognize the goodness and providence of the same. And we recognize our relation to the United States Government, the supremacy of the Constitution, the Constitutional Laws thereof, and the Union of States thereunder."

"This is an institution of Chivalry, Humanity, Mercy and Patriotism; embodying in its genius and its principles all that is chivalric in conduct, noble in sentiment, generous in mood, and patriotic in purpose; its peculiar objects being:

"First: To protect the weak the innocent, and the defenseless from the indignities, wrongs, and outrages of the lawless, the violent, and the brutal; to relieve the injured and the oppressed; to succor the suffering and unfortunate, and especially the widows and orphans of Confederate soldiers."

"Second: To protect and defend the Constitution of the United States and laws passed in conformity thereto, and to protect the states and people thereof from all invasion from any source whatever."

"Third: To aid and assist in the execution of all Constitutional laws, and to protect the people from unlawful seizure, and from trial except by their peers in conformity with the laws of the land."

"Section 1. The officers of this Order shall consist of a Grand Wizard of the Empire, and his ten Genii; a Grand Dragon of the Realm, and his eight Hydras; a Grand Titan of the Dominion, and his six Furies; a Grand Goliath of the Province, and his four Goblines; a Grand Cyclops of the Den, and his two Night-hawks; a Grand Magi, a Grand Monk, a Grand Scribe, a Grand Exchequer, a Grand Turk, and a Grand Sentinel."

"Section 2. The body politic of this Order shall be known and designated as 'Ghouls.'"

"Section 3. The territory embraced within the jurisdiction of this Order shall be coterminous with the States of Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, Kentucky, and Tennessee; all combined constituting the Empire."

"Section 4. The Empire shall be divided into four departments, the first to be styled the Realm, and coterminous with the boundaries of the

several states; the second to be styled the Dominion, and to be coterminous with such counties as the Grand Dragons of the several Realms may assign to the charge of the Grand Titan. The third to be styled the Province, and to be coterminous with the several counties; provided, the Grand Titan may, when he deems it necessary, assign two Grand Giants to one Province, prescribing, at the same time the jurisdiction of each. The fourth department to be styled the Den, and shall embrace such part of a Province as the Grand Giant shall assign to the charge of a Grand Cyclops."

The following questions were asked of candidates for membership:

"1st. Have you ever been rejected, upon application for membership in the Ku Klux Klan, or have you ever been expelled from the same?"

"2d. Are you now, or have you ever been, a member of the Radical Republican party, or either of the organizations known as the 'Loyal League' and the 'Grand Army of the Republic'?"

"3d. Are you opposed to the principles and policy of the Radical party, and to the Loyal League, and the Grand Army of the Republic, so far as you are informed of the character and purpose of these organizations?"

"4th. Did you belong to the Federal army during the late war, and fight against the South during the existence of the same?"

"5th. Are you opposed to negro equality, both social and political?"

"6th. Are you in favor of a white man's government in this country?"

"7th. Are you in favor of Constitutional liberty, and a government of equitable laws instead of a government of violence and oppression?"

"8th. Are you in favor of maintaining the Constitutional rights of the South?"

"9th. Are you in favor of re-enfranchisement and emancipation of the white men of the South, and the restitution of the Southern people to all their rights, alike proprietary, civil, and political?"

"10th. Do you believe in the inalienable right of self-preservation of the people against the exercise of arbitrary and unlicensed power?"

While the candidate was being initiated with impressive rites, in the presence of the flaming cross, and surrounded by the white robed brethren of the "Den," the following charge was administered:

"You have been initiated into one of the most important Orders which have ever been established on this continent: an Order which, if its principles are faithfully observed and its objects diligently carried out, is destined to regenerate our unfortunate country and to relieve the White Race from the humiliating condition to which it has lately been reduced in this Republic."

"Our main and fundamental object is the MAINTENANCE OF THE SUPREMACY OF THE WHITE RACE in this Republic. History and physiology teach us that we belong to a race which nature has endowed with an evident superiority over all other races, and that the Maker, in thus elevating us above the common standard of human creation, has intended to give us over inferior races a dominion from which no human laws can permanently derogate. The experience of ages demonstrate that, from the origin of the world, this dominion has always remained in the hands of the Caucasian Race; whilst all the other races have constantly occupied a subordinate and secondary position; a

fact which triumphantly confirms this great law of nature. And it is a remarkable fact that as a race of men is more remote from the Caucasian and approaches nearer to the black African, the more fatally that stamp of inferiority is affixed to its sons, and irrevocably dooms them to eternal imperfection and degradation."

"Convinced that we are of these elements of nature, we know, besides, that the government of our Republic was established by white men, for white men alone and that it never was in contemplation of its founders that it should fall into the hands of an inferior and degraded race. We hold, therefore, that any attempt to wrest from the white race the management of its affairs in order to transfer it to the control of the black population, is an invasion of the sacred prerogatives vouchsafed to us by the Constitution, and a violation of the laws established by God himself; since the established institutions of our Republic, and that no individual of the white race can submit to them without humiliation and shame."

"As an essential condition of success, this Order proscribes absolutely all social equality between the races. If we were to admit persons of African race on the same level with ourselves, a state of personal relations would follow which would unavoidably lead to political equality; for it would be a virtual recognition of status, after which we could not consistently deny them an equal share in the administration of our public affairs. The man who is good enough to be our familiar companion, is good enough also to participate in our political government; and if we were to grant the one there could be no good reason for us not to concede the other of these two privileges."

"There is another reason, Brothers, for which we condemn this social equality. Its toleration would soon be a fruitful source of intermarriages between individuals of the two races; and the result of this intermixture would be gradual amalgamation and the production of a degenerate and bastard offspring, which would soon populate these States with a degraded and ignoble population and united to support a great and powerful country. We must maintain the purity of the white blood if we would preserve for it that natural superiority with which God has endowed it."

"To avoid these evils, therefore, we take the obligation TO OBSERVE A MARKED DISTINCTION BETWEEN THE TWO RACES."

"Our statutes make us bound to respect solemnly the rights of the colored inhabitants of this Republic, and

in every instance, to give them whatever lawfully belongs to them. It is an act of simple justice not to deny them any of the privileges to which they are legitimately entitled; and we cannot better show the inherent superiority of our race than by dealing with them in that spirit of firmness, liberality and impartiality which characterizes all superior organizations. Besides, it would be ungenerous for us to exercise certain rights, without conceding to them, at the same time, the fullest measure of those which we recognize as theirs; and a fair construction of a white man's duty towards them would be, not only to respect and observe their acknowledged rights, but also to see that these are respected and observed by others."

"From the brief explanation which I have just given you, you must have satisfied yourselves that our Association is not a political party, and has no connection with any of the organized parties of the day. Nor will it lend itself to the personal advancement of individuals, or listen to the cravings of any partisan spirit. It is organized in order to carry out certain great principles, from which it must never swerve by favoring private ambitions and political aspirations. These, as well as all sentiments of private enmity, animosity and other personal feelings, we must leave at the door before we enter this Council. You may meet here, congregated together, men who belong to all the political organizations which now divide, or may divide this country."

Turning Dirt Into Gold

Our business is turning dormant real estate (buildings, improved or vacant lots) into ready cash for the owners. How successful our methods work out is shown by one of our recent sales. The executor of an estate wished to dispose of a certain tract. The best offer we could get for it as a whole was \$14,000. He wanted it possible to realize \$20,000. The property was placed in our hands and we immediately turned it for \$26,000. This is only one of scores of similar instances.

We Can Do the Same Thing for You

Our Mr. Cleveland is now on a business trip to Florida and will be pleased to inspect your property and give you the benefit of his wide experience. We make no charge for this service.

Stefansson, Noted Explorer, to Lecture Friday Night on "My Five Years in the Arctic"

Just as Triple Cities residents and tourists are figuratively recovering their breaths today from the exquisite singing of Frieda Hempel at the Auditorium last night, come plans for another exceptional treat tomorrow night, when Vilhjalmur Stefansson, the noted Canadian-American explorer, will deliver his world famed lecture, "My Five Years in the Arctic," as a number of the assembly course at the huge civic center at the beach.

There is perhaps no white man today who has spent as much time in the Arctic as has Stefansson. Others have gone further north, but the Canadian has lived for years among the Eskimos, with no white men within thousands of miles. The data which he has collected for various universities and colleges, as well as for geological societies has been invaluable. For the greater part of the past 17 years Stefansson has been devoting his entire life to a study of the great northland, largely for the Canadian government which has added thousands of miles of territory through his discovery.

The lecture Friday evening is expected to be one of the most interesting ever delivered locally. The address will be accompanied by motion pictures taken by the explorer in the frozen northland, which will add greatly to an understanding of the subject.

Many theories which Stefansson has advanced the past few weeks through his lectures, gained by his latest trip to the Arctic have been heralded abroad in the national press.

One interesting fact is that he says the notion that the Eskimos live in snow huts is erroneous, that snow huts are used in winter by Eskimos about as much as tents are used in summer by Ohioans.

The old viewpoint of travelers emphasized and exaggerated the differences between people in different parts of the world," says Stefansson. "As the world becomes better known it is increasingly evident that various people are more alike than they are different. It seems to us that the best hope of a real world peace rests on a more widely spread realization of this important fact."

"Northward the course of empire takes its way," says Stefansson. Some ten years ago when he first announced his belief that an expedition could go into the far North and live off the land as it went, the world was amused. For centuries mankind believed that the Arctic is a frightful permanently frozen, lifeless solitude. To prove his theory, Stefansson set out on his expedition in 1913.

News reached the outside world that scarcely had his ship, the Karluk, entered the Arctic ice when Stefansson, venturing away from the vessel, had been cut off by a terrible gale and probably had perished. Then, later came the news of the total loss of the Karluk, the sufferings of the crew, and the journey of her commander across the Arctic ice to Siberia for aid. The World War was dragging nation after nation into its whirl and everybody had given Stefansson up.

VILHJALMUR STEFANSSON

for lost, in fact most of the world had ceased to think about him at all. The world refused to believe that he was alive, when five years after he disappeared into the far North, he announced that he had returned and had begun exploring unknown and hitherto unexplored areas far north of the Arctic circle. The newspapers, remembering the Dr. Cook story, were loath to publish the news and had to be shown.

It is not playful fancy that led Stefansson to name his latest book just off the press "The Friendly Arctic." During these years, 1913-18, lost to the knowledge of the civilized world, he journeyed 600 miles over the ice of an unexplored Arctic Ocean; charted and crossed and recrossed great islands, added 100,000 square miles of territory to the Canadian flag, and demonstrated by every conceivable test that not only can man live on the Arctic, but that it is by far the best method for genius exploration and useful study of those regions.

In his lecture he tells many unpublished facts and incidents; his platform manner is pleasing and his audiences are always entertained immensely.

Gorgeous Street Pageant Precedes Legion Kirmess

No "follies or musical comedy on Broadway will have anything on the American Legion Kirmess which is to be presented at the Auditorium February 16, matinee and night. There will be every feature of the musical comedy and then some. All through the Kirmess there will be catchy music, the "swinging" kind. The sixteen young girls and boys from the high school, championed by Mrs. F. N. Conrad, will present a singing and dancing act that is a "take-off" on the modern musical show. All the world loves youth and beauty, and this scene is full of overflowing with both, for here will be seen eight of the prettiest girls in Daytona. Of course there are boys, making part also, but who wants to look at mere men when eight lovely girls are swaying, smiling and dancing on the stage. Costumes of rainbow hue and flower laden picture hats will add to the effectiveness of this scene.

The Misses Della Perry, Vivian Titus Ruth Butterfield, Emma Barnes, Marcelle Smalheirn, Norma Bracey, Margaret Waldron, Violet Sutherland and Fred Cherry, Harlow Merriady, Roland Piero, Erling Spedahl, Floyd Klock, Paul Garrison, Nick Young, Eugene Traylor are rehearsing every night to help the American Legion make their carnival of grace the biggest thing that has ever come to the Triple Cities.

The night before the Kirmess will be given over to a gorgeous street pageant. This parade will exceed anything of the kind ever seen here, and many beautiful auto floats will be in line. The various organizations will be invited to participate in the event. Red life bands and large bands will add a carnival note to the parade. Remember, the Kirmess is being given for the boys who served in the World War. Save February 16 for them and go to the Auditorium for a real treat.

Mrs. Mary E. Earnest of Indiana, Pa., who is located at 235 Grandview avenue, Daytona Beach, left Wednesday afternoon for a short stay at St. Petersburg, but will return to the beach, where she will remain until the first of May.

Sport Carnival On Water, Land and In the Air Is Planned

Renewed courage and greater effort was the unanimous spirit shown by the directors of the Florida Auto Racing Association at the regular weekly meeting held Wednesday evening in the Daytona Beach Hotel.

A staunch confidence in the future of the association's work to promote big racing events on the beach throughout the year and total disregard of the unfavorable weather which so far has attended the attempts to hold successful races were expressed by the various officials and directors present.

The most important business transacting of the offices made vacant by the death of L. A. Silve, Jr., H. E. Gardner as director, Chas. E. Bostwick as treasurer, and A. Milligan as second vice-president of the association were unanimously elected.

It was decided to take official action at the next meeting regarding a gala week of combined air, racing and water sports, toward the latter part of the season. L. L. Selden reported the sale of two shares of stock to the Volusia County Bridge Co. by H. F. Thompson and presented the secretary a check in payment. Bill of E. A. Velington for labor and use of truck, amounting to \$63.70, was approved and Mr. Velington agreed to take a share of stock in part payment.

It was voted to pay the attorney, R. L. Selden, \$50 out of appreciation for the legal services rendered the association in the matter of organization, at the meetings, and in other ways. Mr. Selden explained that he had been waiting for data, records, etc., to carry out his previous instructions to open a set of books for the association and to keep the financial affairs of the corporation as required by the state.

The secretary was instructed to turn over to the attorney the records of the former treasurer and necessary papers to go the work and prepare a financial statement to date to be presented at the next meeting. Bill Endicott spoke of his full confidence in the successful future of the local racing association and told of his trips through the various southern cities to arouse interest in racing on the beach and to bring in outside fast cars to enter in the events.

President Bailey added that on Wednesday there were 14 or 15 racing cars all ready for the races and every one of them in fine working order and that a number of other speed cars were held up by the rains on the way from Jacksonville to the beach.

A discussion in which all participated took place regarding the things most needed to make each racing event a larger and more successful affair than the previous one and which would draw many entries and large crowds.

Among those present were Guy G. Bailey, president; J. A. Seals, secretary; R. L. Selden, attorney; Chas. E. Bostwick, C. B. Wingate, Dr. F. B. Groesbeck, H. E. Gardner, H. F. Thompson, J. R. Miller, Bill Lindley and Bill Endicott.

CARLSTROM FIELD AT ARCADIA ABANDONED AS FLYING STATION

WASHINGTON, Feb. 2.—It has been decided here that Carlstrom field aviation ground, at Arcadia, must soon be abandoned, which will probably mean that this step will be taken when the present class there has finished its work, in a few months.

There is no discrimination against Carlstrom field, but this action is simply in line with the position of the government authorities to reduce expenses in all lines wherever possible.

Of all the aviation fields only three—Kelly, Texas; Ellington, Texas, and one in Oklahoma, will be retained.

Congressman Drazo, who was largely instrumental in having the Arcadia field located at that place, which is in his district, has worked hard on the matter from the beginning. When it became evident some time ago that many such places would be closed he kept behind the matter vigorously. From information today it is said that the government is well pleased with what has been accomplished at the Florida field, and that it is only because of the necessity for reducing expenses that Carlstrom will be abandoned in the near future.

When Carlstrom field was laid out by the war department during the world war, a companion field, Dorr,

also was laid out at a point some miles from the main field. When after the armistice was signed Dorr was closed, and when the time only a squad has been maintained there to guard the buildings. It is to be presumed that when Carlstrom field is abandoned a similar squad will be maintained there. Carlstrom has been, and is today, one of the most noted training grounds for flyers in the United States.

Two bells of Seaton Parish church, Dean, Eng., are still sound, though made in 1430.

Bicycle Riders, Listen!

A Big Sociable Bicycle Ride Will Be Held on Friday February 3, 1922

START FROM
THE CASINO AT
3:30 SHARP

Everyone with a Bicycle invited.

Several old time high wheels will be in the parade.

The parade will finish at the baseball park.

Fred St. Onge, America's foremost exponent of cycling, will give a demonstration on correct cycling. He will show how to ride a wheel properly.

Extra! Extra! Extra!

The Daily News has generously donated a silver cup to be given to the school having the largest number of riders in the parade.

Oh, Boy! Chero-Cola free for the riders. Let's go!

START FROM
THE CASINO AT
3:30 SHARP

A real pleasure ride on bicycles, same as the boys and girls enjoyed not so long ago.

Cycling is the best of all outdoor exercise.

Cycling is fashionable.

Cycling is the beneficial means of transportation.

Every boy and girl, man and woman should ride a bike.

The sociable ride Friday will start from the Casino. The riders will parade across to Daytona Beach, meeting the riders from that section, and all will return to the baseball park, where refreshments will be served free to all the riders.

MUCH AT STAKE IN ELECTION OF THE NEW PAPAL HEAD

(Continued from page 1)
Cardinal Gasparri, papal secretary of state, made it known that he would attempt to have the late pontiff's policy carried out by his successor. The chief aim of this policy was reconciliation between the Vatican and the quinquennial. Supporters of Cardinal Gasparri claimed 22 votes.

The opposition faction, which opposed reconciliation on the ground that it would repudiate the international prestige of the church was led by Cardinal Merry Del Val, cardinal chamberlain of the holy Roman church, secretary of the congregation of the holy office and arch priest of the basilica of the Vatican. Adherents of Cardinal Merry Del Val claimed to have 20 votes assured.

The program for the afternoon called for the assembling of the violet-robed cardinals in the Pauline chapel at 3:30 o'clock. After short individual prayers, the procession, preceded by cross bearers and a choir chanting "Veni Creator" enters the Sistine chapel where the polling will take place.

The Vatican has been completely sealed, although communication may be had with the office of the papal secretary of state. The cardinals will be shut off from the outside world until they make a selection.

It was the duty of Cardinal Van Nueteli, dean of the sacred college, and Cardinal Gasparri, papal secretary of state, to administer the oath to the officers of the conclave.

From this time on the rest of the day's ceremonies are late in the afternoon and evening. A special warning is given to the cardinals that violation of the oath of secrecy will mean ex-communication and other penalties prescribed by the new pope.

A gong will then sound three times and chamberlains run into the halls summoning from the Sistine chapel all except those who have official business within.

The final ceremony of sealing up the chapel has been under way in the meantime. After the cardinals are all within the chapel, Count Chigi, the marshal, locks the doors on the outside and Cardinal Van Nueteli on the inside. Seals are put over the locks. The papal notary then draws up a document testifying that the apartment is completely sealed.

Cardinal Gasparri, accompanied by three cardinals and torch bearers in scarlet livery will then examine all of the in-walled areas for stowaways.

Seventeen women, including eleven nuns and six assistants, were locked up in apartments of their own. They will do the cooking and clean the crockery.

The other outsiders locked up for the conclave in case their services are required are two physicians, two druggists, two mechanics, two night watchmen, a carpenter, a plumber, a blacksmith, a messenger, an architect, and an expert in munitions.

Three complete white papal outfits, one large, one small and the other medium, were placed in the robing room adjoining the chapel for use by the new pontiff as soon as the tellers announce an election. It is expected that, beginning tomorrow morning, two ballots will be taken daily.

Dwellers in St. Peter's square have lessened windows and roofs for "look-out" posts for newspaper men. Special telephone wires have been strung.

After each vote, the ballots are burned. A stove had been placed in the Sistine chapel with the chimney projecting through a window. In the event of a selection, only the paper is burned, making a white smoke. In the event of no election, straw is mixed with the ballots to make the smoke black. Thus, when the watchers outside see white smoke issuing from the chimney they know a new pope has been elected.

WILL RUTHLESSLY CRUSH RAIL STRIKE IN GERMANY

BERLIN, Feb. 2.—Government officials declared today that the general strike of railway men which began last night would be crushed ruthlessly. Complete obedience to the strike order would affect about 500,000 men, but it was not known this morning exactly how many workers had quit. Military police will be used to prevent disorders.

Bicycle Educator Demonstrates Art at Local Schools

School boys and girls of Daytona and Seabreeze were treated to an unusual lesson yesterday when Mr. St. Onge, the bicycle educator, paid a visit to Central High and Seabreeze schools to give a demonstration in right and wrong cycling. He gave an exhibition of scientific and comedy cycling on the stages of the assembly halls that met with great approval.

Mr. St. Onge announced that the Daily News would give a silver cup to the school having the greatest number of riders in line in Friday's bicycle parade. This was greeted with cheers and he was assured there would be a good representation from each school.

Today Mr. St. Onge is a guest of C. T. Kruse, of DeLand, where he will visit the high school in the morning, returning to Daytona for a demonstration at the two grammar schools here.

Only rainy weather will put a stop to the big bicycle parade that will start from the Casino tomorrow afternoon at 3:30 o'clock and from present indications there will be a big number of riders in line. With a silver cup from the Daily News, Chero-Cola from the Chero-Cola Company, and souvenirs from the local bike dealers, the youngsters will surely have a fine outing and one that will live long in their memory.

Mr. St. Onge will have company on his high wheel, as two others will ride wheels of the same vintage. All riders should assemble at the Casino as soon after school hours as possible, as the start will be made exactly at 3:30.

The Daytona Beach riders will assemble at Geo. P. Johnson's and await the arrival of the riders from Daytona, who will escort them back to the baseball park. Dunn Bros., Gene Johnson, Graham Thompson and Geo. P. Johnson will act as hosts to the riders in tomorrow's big affair. All bicycle riders are welcome, as the affair is not confined to any sex or age.

Showing the interest which has been aroused in the bicycle parade, especially among the "old-timers," Mr. St. Onge has received the following very interesting letter which was sent to him in care of the Daily News:

"Friday, weather permitting, there will be among the riders in the cycle parade one of the oldest, if not the oldest, active lovers of cycling in the country today.

"This gentleman rode the silent steel way back in the 'bone shaker' days of England and brought from there one of the first pneumatic-tired safeties ever seen on the streets of Boston and he has never been without a bicycle since.

"Every day, even at this advanced age, he takes his constitutional on the smooth beach, and I'll make the assertion that among the gathering of healthy, happy riders of Friday there won't be a straighter, healthier, more graceful man there, and he lays these wonderful possessions to his love for the bicycle and its pulling powers to take a man out in the great outdoors.

"This gentleman—one cannot call him old—never missed a run to Chestnut Hill in the days when 'Lon' Peck and 'Jack' Fecchi led the parades, and 'Pop' Lowe also was there. Happy days!

"I won't name this old lover of the bicycle, as he is a modest chap still and does not know I am giving him away like this, so I'll wait and see if you can pick him out Friday. Gene Johnson, the Sherlock Holmes of the South, is acquainted with him, and so are George P. Johnson and the Dunn brothers, but I doubt if they know of his age and love for the steel of wire.

"I'll close with the wish that the weather on Friday will be all that can be desired and the information that this gentleman I have written of has left the 30 mark behind some time ago.

"Very truly yours,
"OLD TIMER."

THE VIRTUE OF SAVING

lies in the fact that thrifty men and women think, plan and look forward. It makes them progressive and they become more valuable assets to their community as well as to their country. Thrift evidences superiority in many ways: it gives foresight, it denotes self-control, self-reliance, prudence and finally brings independence. The practice of saving money gives an upward tendency to life, improves a person's outlook upon life and has a healthful reaction upon all his activities.

You may wonder whether or not your life will be a success. Can you save? If not, you are bound to fail—you may not think so, but you will. There is nothing that gives a person the right of reaction in life more effectively than saving money. When one learns how to save regularly he has advanced well on the road to success. In other words, he is stepping forward in a definite, positive way.

BURGOYNE GAMES CLUB

Forty players on the shuffleboard yesterday afternoon finished the tournament which was begun Tuesday under the auspices of the Burgoyne Games Club and which was postponed on account of the weather.

By an unusual coincidence the three highest scores for the three prizes tied at 100 and on the playoff the following won in the order named: W. Frederick, Dr. Arnold and F. Hewen. These gentlemen received, respectively, a Waterman fountain pen, a set of playing cards and a pocket knife. The bobby prize went to Mr. Nussbaum who made the lowest score, 18.

The games were watched by a large number of spectators and it was voted to hold another contest for prizes next Tuesday, February 7, at 2 o'clock. It is planned to make the contest Tuesday an elimination contest with the privilege of "knocking off."

The big horseshoe pitching tournament for prizes furnished by Mrs. Charles F. Burgoyne, was started Wednesday afternoon, but was only about half completed when the games were halted at 5:30 o'clock. The tournament will be finished this afternoon and the prize winners announced.

GOOD MORNING, JUDGE

Owners and drivers of trucks without mufflers would do well to heed the warning issued by Judge Titus in the city court this morning, unless they wish to spend an indefinite period as guests at the city jail.

John Fendrick, charged with operating a truck without a muffler, appeared before the judge this morning and pleaded guilty to the charge. Mr. Fendrick explained that the truck is an old one and that he intends to discard it and that it is difficult to keep a muffler on it.

However, Judge Titus said that this same truck had caused complaint before and that the driver of it already had been fined once.

"I am going to let him off this time with a fine of \$10," said Judge Titus, "but if any driver of that truck comes in here again on the same charge, it is going to mean a jail sentence. It is bad enough to have to put up with the noise from the cut-outs in the daytime, and I certainly am not going to have citizens disturbed at night by back-firing and other noises that make men think there is a shotgun fight going on in the neighborhood."

Alexander McCoolie, who engaged in a difficulty with another man at the depot, was charged with disorderly conduct by fighting. Neither of the participants appeared in court and McCoolie's bond of \$10 was forfeited.

Poll Taxes For March Election Paid By the 11th

All white persons who are qualified to vote in city elections and who have not paid their poll taxes for the last two years, in the case of men, and one year in the case of women, should bear in mind the fact that poll taxes must be paid not later than Feb. 11th, one week from next Saturday in order to be qualified to vote at the election to be held March 11th, when seven city commissioners will be chosen to put into operation the new city charter which will take effect on the 1st of April. The poll tax for 1934 will be \$1.00. The amount of poll taxes must be paid by Feb. 11th.

Van W. Morgan of Port Orange Dies; Resident 21 Years

Van W. Morgan, a resident of Port Orange for the past 21 years, died at his home Wednesday afternoon at the age of 78. He was born in Ohio and came to Port Orange in 1913. He was a member of the Methodist church and was a very active member of the community.

Mr. Morgan was a very successful businessman and was the owner of the Morgan Bros. Hardware Company. He was also a member of the Port Orange Chamber of Commerce and was very active in the community. He was a very kind and generous man and was loved by all who knew him.

He was buried in the Port Orange cemetery on Friday afternoon. His funeral services were held at the Methodist church on Saturday morning. He is survived by his wife and several children.

The Triple Cities aren't the only place in Florida that are getting their share of the winter trade, according to Mr. and Mrs. W. F. Tyler of Miami, who have just returned from a recent tour of the state. Mr. and Mrs. Tyler also received a report that Miami also received a share of the winter trade. Mr. and Mrs. Tyler will remain at the Prince George Hotel for the season.

C. E. Henderson of Providence, R. I., who is connected with the jewelry firm of J. C. Hartwick & Co. of that city, has returned from a trip to Miami and will spend two weeks at the Prince George. This is Mr. Henderson's tenth season at this hotel.

Miss Audrey Carlton of Albany, N. Y., is a guest of Mrs. W. W. Henderson, wife of Manager Hilyard of the Prince George, for two weeks.

Mrs. Hilyard has received word from her mother, Mrs. C. S. Mills, that she has arrived safely at her home after a very trying trip. Mrs. Mills stayed North just about the time the recent storm also headed in that direction, and writes that she and other passengers were compelled to traverse the trip in other trains. She reached her destination twelve hours late.

A meeting of the committee on incorporation met Wednesday afternoon at the office of F. W. Pope. This committee, all members of whom are attorneys, was appointed to make arrangements in connection with the incorporation of the new hospital. The committee consists of F. W. Pope, Judge N. S. Sears, William Gardiner and David Shultz, and all were present. Cornelius S. Loder attended by invitation. The charter for the new hospital was thoroughly discussed and a preliminary draft prepared, and the committee will be ready to make their report at the Thursday evening meeting.

The Seaside Inn has members among its guests this week two prominent visitors to the city in the persons of Mrs. A. McCarthy of Boston and Dr. George W. Holmes of Pittsburgh.

Mr. McCarthy has become quite well known in the Triple Cities during his stay here, through his lecture on the "Hypnotic Question" and by addresses at both the Rotary club dinner at the Alhambra last Tuesday evening and the Kiwanis club luncheon Wednesday at noon. On both occasions he was a special guest and entertained the clubs with humorous addresses and with several of the most famous men. Mr. McCarthy will be in the Seaside Inn through Sunday in order to hear the address of Dr. W. W. Holmes at the Auditorium Tuesday afternoon.

Dr. Holmes, who is prominently identified with the American Civic Union, is on the Open Forum program for an address to be delivered Tuesday afternoon, February 12. He has been mentioned the courtesy of the Seaside Inn and Country Club, and with Robert S. Holmes, played his first round there yesterday afternoon.

Mrs. J. W. Stoll of Lexington, Ky., who, with her husband, a prominent banker of Lexington and member of the Kentucky house of representatives, is an annual visitor to the Seaside Inn, has arrived for the season. She will be joined later by Mr. Stoll.

Mr. and Mrs. Henry W. Boser of Atlanta, who are making an auto tour of various points in the state, were registered at the Seaside Inn yesterday for a short stay.

MOTEL CLARENDON

Miss Frieda Hempel, the world's most famous soprano, who has been a guest of the Clarendon while in the Triple Cities for her engagement at the Auditorium last night, left at midnight for Palm Beach, where she will sing tonight.

Mr. and Mrs. W. D. Phillips of Cincinnati, who have been coming to the Clarendon for a number of winters, have arrived and will spend the rest of the season at the Clarendon. Mr. Phillips is president of the American Mutual company of Cincinnati.

Mr. and Mrs. George A. Hill of Akron, Ohio, are again at the Clarendon for the season.

Miss A. L. Phillips, one of the best known society writers of the country, who spends her winters in Palm Beach, where she serves as correspondent for a number of newspapers and society journals, stopped at the Clarendon for a few days on her way from California to Palm Beach.

Mr. and Mrs. H. D. Smith of Washington, D. C., are season guests at the Clarendon.

Mr. and Mrs. M. S. Santag of Evansville, Ind., where Mr. Santag is a leading business man, have returned from a visit to Palm Beach and will spend two weeks at the Clarendon.

Mrs. Antoinette had a handkerchief that was embroidered with pearls valued at \$5000.

Many Artists In Concert Tomorrow at Palmetto Club

Music lovers of the Triple Cities are looking forward with much pleasure to the concert which will be given in the Palmetto Club at 8 o'clock Friday morning.

The artists will be Charles W. Little, the blind violinist of Brockton, Mass., and Grant E. Penny, pianist and accompanist, of Boston. The violinists will be given by Miss Leocoburn, who is a graduate of the Cincinnati Conservatory of Music. Miss Coburn has a soprano voice of beauty and her many friends in the Triple Cities will be glad of this opportunity to hear her in public recitals.

Mr. Little and Mr. Penny have been touring Florida giving concerts at various winter resorts. In connection with a music Mr. Little delivers a lecture "The Capabilities and Possibilities of the Blind." He studied at the Perkins Institution for the Blind and also received his training with Felix Yonckin, of Boston. Mr. Penny is former student of the New England Conservatory of Music in Boston.
